Hi

TO WHOM IT MAY CONCERN

I would like to say how much Microsoft has added to my life by providing programs and software that an older person like myself can use and depend on and I think at a very reasonable price.

I would hate to see all the progress Microsoft has made be destroyed in favor of competitor's that are trying to destroy Microsoft.

Microsoft has brought the whole world into the high tech arena which has created millions of jobs and economic advances which will probably lead to many more.

So I say lets not kill this horse because we have all benefited from it.

Sincerely,
Kenneth Bond
